

# Tulare County General Plan Update

**Tulare County General Plan Technical Advisory Committee  
See Cover Letter for Dates and Locations**

## **Sub Task Group Agenda**

---

- 1. Welcome and Update**
- 2. Review of Background Report (1.5 hrs.)**

Participants will have an opportunity to discuss the Background Report. The purpose is to collect the best available data, and list local initiatives. Time will be limited, so please put your thoughts and ideas in writing (marked copies of the report accepted), and bring along copies of reference materials that should be included indicating the relevant quotations, statistics, descriptions, contact names and telephone numbers, etc. Dedicated Countywide staff will continue to work with through November to collect and verify information.
- 3. Policy Solutions (1 hr.)**

This exercise will include brainstorming and prioritization to identify the top three policy solutions that should be included to address each of the priority issues identified during Phase I of the planning process. Questions relevant to each Sub Task Group will be selected from the Policy Choices attachment.
- 4. Mark the Next TAC Meeting Date on Your Calendars**

**Monday November 29, 2004, 1:30 p.m.**  
**Conference Rooms A & B, Board of Supervisors Chamber**  
County Civic Center, 2800 West Burrel, Visalia, CA
- 5. Adjournment**

## ***Policy Choices***

- A. What specific land use and transportation measures should the County undertake to reduce air pollution?
- B. What measures can the County take to reduce groundwater overdraft/depletion and improve groundwater quality?
- C. What can the County do to ensure an adequate water supply to meet future needs?
- D. How can the County encourage higher education and training?
- E. How can the County prevent deterioration of current infrastructure and meet the needs of new development?
- F. How can the County promote economic diversification?
- G. How can the County expand the tourism industry utilizing existing recreational resources?
- H. How can the County meet the needs of a growing population and protect agricultural and natural resources?
- I. How can the County achieve greater consistency among plans?
- J. How can the County provide housing for all income levels?
- K. What growth patterns will the County use to accommodate future development?
- L. Other?
